

LVA 6.50 Level I Training Overview

LVA 6.50 Level I Training requires the participant to successfully complete a 40 hour classroom session. During this training, participants will have a combination of lecture, practice with hands-on applications and applied study. At the conclusion of Level I Training, all participants will be given a written examination, proficiency testing and be required to take an interview on-line and analyze it in the off-line mode.
